PROFESSIONAL SUMMARY

Full-stack developer with hands-on cloud deployment experience — six live products shipped end-to-end, from database schema to server provisioning to production URL. Led two engineering teams at Vassu Infotech, taking a company-wide ERP system and inventory platform from concept to production for a 30-person organization, including Linux server configuration, Docker-based containerization, and CI/CD-driven deployment. Proficient across MERN and Django/Flask, with growing focus on the infrastructure side of shipping software — containerization, deployment automation, and cloud-ready architecture. Looking to bring that build-and-deploy ownership to a full-stack or cloud/DevOps engineering team.

EXPERIENCE

Software Development Engineer & Project Lead — [Vassu Infotech](#)

May 2026 – Jul 2026

Hardware manufacturer expanding into software & IT services | ~30 employees

- Served as project lead for two concurrent development teams, taking both products from concept to production use company-wide, across all ~30 employees at Vassu Infotech.
- Led development and deployment of [VassuERP](#), a live enterprise resource planning system covering core business workflows, built with Django, Flask, SQL, and MongoDB.
- Led development and deployment of [StockFlow](#), a live inventory management system with dedicated modules for tracking stock inflow and outflow across warehouses.
- Built full-stack features spanning React/Node.js/Express front ends and Django/Flask back ends, coordinating API contracts between both stacks.
- Containerized application services with Docker and configured CI/CD pipelines for automated deployment; wrote Linux shell scripts for server provisioning and configuration on Hostinger VPS infrastructure.
- Managed source control and collaborative workflows using Git and GitHub across both product teams.

PROJECTS

Akids Enterprise — E-Commerce Platform | [Live Site](#) | [GitHub](#)

React | Node.js | Express.js | MongoDB

- Built and deployed a live e-commerce website with product catalog, cart, and checkout flows, and a responsive, production-ready UI.

Meghdoot Motors — Service Center Website | [Live Site](#) | [GitHub](#)

React | HTML | CSS | JavaScript

- Developed and deployed the official website for a Maruti Suzuki authorized service center, with a clean, mobile-friendly UI for service info and inquiries.

Fintrack — Personal Finance Management App | [GitHub](#)

React | Node.js | Express.js | MongoDB | Kotlin

- Built a web and mobile finance tracking app for logging transactions, monitoring spending, and generating downloadable financial reports, with data sync across platforms.

Aarisha — Collaborative Web Platform | [Live Site](#) | [GitHub](#)

- Collaborated on the build and deployment of a live web platform, contributing to feature development alongside a fellow developer.

Shrinath — Sales Monitoring System | [GitHub](#)

- Built a sales monitoring system for tracking transactions and performance metrics, designed for small-business sales tracking workflows.

HRMS — HR Management System

React | Node.js | Express.js | MongoDB

- Collaborated with a team to design and build an HR Management System for the Odoo Hackathon, contributing to both front-end interfaces and back-end APIs under time constraints.

SKILLS

Languages: Python, Java, Kotlin, JavaScript, C, C++

Frameworks & Libraries: React.js, Node.js, Express.js, Django, Flask, RESTful APIs

Frontend: HTML5, CSS3, JavaScript

Databases: SQL, MongoDB

Cloud & DevOps: Docker, CI/CD (GitHub Actions), Linux/Shell Scripting, Git, GitHub, Hostinger VPS Deployment

EDUCATION

Charotar University of Science and Technology (CHARUSAT)

Bachelor of Technology in Information Technology — 5th Semester | CGPA: 7.5 / 10

Seventh Day Adventist Higher Secondary School

Higher Secondary Certificate (Class XII) — 94%

Divine Gurukulam

Secondary School Certificate (Class X) — 92%

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900) Exam Prep — [View](#)
- Core Java — [View](#)
- Advanced SQLite Queries with Belkasoft — [View](#)
